

## Modifying Chapters in Weekly Assignments of the Study Schedule

For subscribers, the default Study Schedule includes Weekly Assignments of 5 to 8 chapters chosen to move residents through ROCK's 500+ chapters in a two-year cycle. However, adjusting which or how many chapters are assigned per week to suit specific program resident, cohort or schedule needs is possible. Here's how.

Once signed in, from the main navigation menu, select Study Schedule

→ C <sup>2</sup> rock.aaos.org						☆ ひ	-
