

# **Translating ROCK**

To ensure the majority of ROCK content, which is text based, is accessible to our global members, here are several options for viewing the content in a preferred language depending on which browser is used.

For Mozilla Firefox users,

1. Open Firefox and navigate to rock.aaos.org. Select the main browser menu and select Translate Page.

2. In the box that appears, select the preferred language for page display.

3. Then select Translate.

# **USER GUIDE**

4. Now all non-in-image text on ROCK will be displayed in the preferred language.

1.

For Google Chrome users,

### Open Chrome, select the menu icon, and select Settings From the drop down.

2. In the left sidebar, locate "Languages,"

3. Find the Google Translate section and toggle on the Use Google Translate option.

## **USER GUIDE**

4. Then select the language you'd like pages to be translated into.

4.a. If preferred to automatically translate ROCK and other sites under "Automatically translate these languages," select "Add Languages" and add "English." Under the "Never offer to translate these languages," add your preferred language.

5. Then navigate to a new tab and visit rock.aaos.org. All non-in-image text will now appear in the selected preferred language.

For Microsoft Edge users,

1. Open the Edge browser, then select the browser's main menu. From the drop-down menu, select "Settings."

2. In the settings interface select Languages.

3. In the Preferred languages box, use the Add Languages button to add a preferred language.
